A NEW ERA
A NEW PARADIGM
A NEW ALFA ROMEO

Alfa Romeo has always taken a unique and totally original approach to designing its automobiles: it is the point of convergence between design and passion, between a love for the most cutting-edge technology and a strong instinct to inspire emotions. Today, Alfa Romeo is writing a new chapter in its history, introducing a future where once again the driver is at the centre of the design. Here is the new Alfa Romeo Giulia.
EMOTIONAL DESIGN

Simplicity, formal balance and harmonious surfaces. A unique and unmistakable appearance, represented by the trilobe. This is the Alfa Romeo style. The Giulia embodies that style. Beautiful and functional, with balanced weight distribution and rear-wheel drive, the engine and mechanics between the two axes, all its power is transferred to the road.

The Giulia’s surfaces are defined by light. Its profile is power and motion.
Every detail of the Alfa Romeo Giulia was designed to give the best performance, also in terms of efficiency. The engines, all turbo-charged and built entirely in aluminium, offer an unprecedented balance of power and respect for the environment and come standard with 8-speed automatic transmission. With the Giulia, emotion also takes the lead.

HIGH PERFORMANCE MINDSET

0-100km/h 6.6"

The new Alfa™ DNA lets the Giulia vary the dynamic responses and customise them according to your driving style and traveling conditions.

Dynamic: favours performance and responsiveness. The steering response is more accurate, the braking more responsive and the electronic control systems leave space for the enjoyment of a sporty drive.

Natural: ideal for both city streets and highways. The dynamic behaviour is geared to comfort and efficiency.

Advanced Efficiency: a new mode that allows you to maximise energy savings and minimise emission levels.

The Alfa™ DNA also interacts with the Alfa™ Active Suspension (if available): the shock absorbers adapt to the desired driving style, becoming more rigid for a sporty ride or softer for a more comfortable drive.

TURN YOUR TRIP INTO A JOURNEY
The perfection of the Sound Theatre by Harman Kardon® exalts the sensations you feel behind the wheel of the Giulia. 900 W of power, 14 speakers (including subwoofer), 12-channel amplifier and Logic 7® technology. An exciting digital surround sound effect, full of depth and detail. In the Giulia, sound becomes almost material.

Fabian Oefner
Black Hole, 2013

THE GRAVITY OF SOUND

This confirms the great commitment to aerodynamic development, and the constant and exhaustive work conducted in the wind tunnel. This research made it possible to develop and adopt the most advanced technical solutions: in particular, the streamlined design of the base that improves the airflow under the car and the aerodynamic flow management at the rear help reduce turbulence, improving dynamic efficiency.

BALANCE HAS NO COMPROMISES

Maximum attention to detail in every design feature gives the car its perfect balance. In fact, the rear-drive combined with the longitudinal front position of the aluminum engine and the carbon transmission shaft ensure an optimal weight distribution along the frame.
SENSE THE ALFA ROMEO GRIP

The return to rear-wheel drive and direct steering perfectly sums up sportiness and comfort for pure driving pleasure.

Roadholding is guaranteed by the Alfa™ Link suspension system, made entirely from aluminium, which ensures excellent dynamic behaviour and unique handling at the front, the new double-wishbone system with semi-virtual steering axles keeps the wheels perfectly perpendicular to the road, even on the most challenging bends, while at the rear, the Multilink system with four and a half links is the best combination of lateral grip and comfort level, even on uneven road surfaces. Moreover, thanks to its compactness, it ensures the maximum rear passenger room.

The Alfa Active Suspension™ system dynamically adjusts the suspension response according to the driving conditions and the mode selected with the Alfa™ DNA selector. This technology allows a softer shock absorber setting for a more comfortable ride, or a more rigid setting for more precise sporty driving.
The new Giulia is designed to provide an excellent power to weight ratio thanks to the extensive use of ultra-light materials: carbon fibre for the driveshaft and aluminium for the hood, doors, engine, suspension and brake calipers. These choices translate to greater efficiency and better driving dynamics, for a considerable reduction in fuel consumption and emissions.
ACTIVE SAFETY

The Giulia’s safety systems employ today’s most advanced technology to support intuitive driving with different levels of intervention, minimising risks and preventing dangerous situations.

**Forward Collision Warning (FCW) with Autonomous Emergency Brake (AEB) with pedestrian recognition and active braking.** This device warns the driver of a potential head-on collision, using acoustic and visual signals and activating the braking system. In urban driving, at speeds below 50 km/h, it can also detect the presence of pedestrians in the car’s path and stop on its own in case the driver is unable to actively intervene.

**Integrated Brake System (IBS).** The new Alfa Romeo Giulia is the first sedan in its segment to be equipped with this innovative electromechanical device, which combines the functions of the brake system with those of stability control. With the highly sensitive brake pedal, the system eliminates any vibrations in the case of ABS braking. It responds powerfully and rapidly, and can stop the car from 100 to 0 km/h in a space of just 38.5 metres.

**Lane Departure Warning (LDW).** A video sensor installed on the windscreen recognizes the road surface markings and alerts the driver with audio and visual warnings, if the driver moves out of the lane involuntarily or fails to use turn signals.

**Blind Spot Monitoring (BSM).** The system continuously monitors the rear blind spots on both sides of the vehicle, using two radars set in the rear bumper. Any potential risk is signaled with lights on the exterior mirrors, warning the driver of obstacles at the sides of the vehicle.

**Rear Cross-Path Detection** monitors the area behind the car during reversing manoeuvres. The device signals the approach of other vehicles at a right angle to the car and at speeds lower than about 35 km/h.

Alfa Romeo Giulia obtained 5 EuroNCAP stars with a score of 98%, establishing it as the safest car ever for adult protection.
The connection between the Giulia and its driver has no boundaries. Thanks to the on-board technology: the next generation infotainment system with Rotary Pad command, Alfa™ Connect 3D Nav with three-dimensional high resolution maps, the 8.4” central display and 7” TFT screen included in the on-board instruments.

**A HUMAN-MACHINE SYMBIOSIS**
Giulia is available with the 2.0 Turbo Petrol 240kW AT engine.

Giulia

- 16" alloy wheels
- Aluminium brake calipers
- Bi-xenon head lights
- Fog lights
- LED rear lights
- Chrome exhaust tip
- Black interior air vents/teak
- Black cloth seats
- Automatic dual zone climate control
- Steering wheel mounted start button
- Leather steering wheel
- Cruise control/Speed limiter
- Dakr edition
- Rain sensor
- Electric parking brake
- AHN D N.A
- Autonomous Emergency Brake (AEB) with pedestrian detection
- Lane departure
- Forward Collision Warning (FCW)
- Integrated Brake System (IBS)
- Tyre inflation kit
- Lane Departure Warning (LDW)
- 3.5" TFT colour instrument cluster
- Connect 6.5" (radio, MP3, aux-in, Bluetooth, 8-speaker audio, rotary pad)

Giulia is available with the 2.0 Turbo Petrol 240kW AT engine.

Giulia Super trim is available with the 2.0 Turbo Petrol 148kW A T engine.

In addition to Giulia:
• 17“ alloy wheels
• Adaptive cruise control w/stop
• Privacy tinted glass
• Safety entry pack
• Climate upgrade pack
• Chrome surround moulding
• Leather and cloth seats
  (3 colour variants)
• Two-tone dashboard and door panels
• Aluminium door sill
• Paddle shift
• Rear-view camera

Red leather and cloth seats

Tobacco leather and cloth seats

Black leather and cloth seats
LIFE SHOULDN’T BE REDUCED TO BLACK AND WHITE

In addition to Giulia Super:
• Sport Pack
• Convenience Pack
• Uconnect 8.4 Navigation
• Leather seats
• 18" alloy wheels
• Power seats
• Run flat tyres

Giulia Stile pack (6CN)
**INTELLIGENT MULTIMEDIA**

**MEDIA ENTERTAINMENT**

Maximum connectivity with a full range of devices. Using the USB/AUX/SD ports and Bluetooth connection, you can listen to all your favourite music onboard.

The graphics and system logic are designed to make the steering wheel-mounted controls and rotary pad the perfect extensions for full control of all infotainment functions.

**CONNECT 3D NAV 8.4**

Based on the latest-generation TomTom platform, the Connect 3D Nav 8.4 sat-nav system is optimised for simple, intuitive use. The interactive contextual container makes the system the perfect guide on every trip, and the thoughtfully structured display of information makes everything clear at a glance.

**MYCAR**

Vehicle status constantly monitored. Vital information relayed at all times, from technical data to servicing requirements. The graphics combine flat and three-dimensional elements to facilitate use and contribute to a gratifying, full-immersion experience of the world of Alfa Romeo.

**EFFICIENT DRIVE**

Efficient Drive is useful for all types of driver, from the newly qualified to the most advanced. Intuitive graphics provide a qualitative analysis of driving style and offers useful information and tips for more efficient driving.

**SPORT PACK (BLQ)**

- Aluminium inserts on dashboard, central tunnel and door panels
- Sport leather steering wheel
- Aluminium sport pedals
- 25W bi-xenon headlights

**SPORT PACK AFS (BLR)**

- In addition to Sport Pack:
  - 35W bi-xenon headlights + Adaptive Frontlight System (AFS)
  - Headlight washers

**PANORAMIC SUNROOF (400)**

- Tinted glass panoramic roof with electric opening

**DRIVER ASSISTANCE PACK (6UN)**

- Rear-view camera with dynamic grid lines
- Front/rear parking sensors

- Rear-view camera with dynamic grid lines
- Front/rear parking sensors
DRIVER ASSISTANCE PACK PLUS (8H4)
- Rear-view camera with Dynamic grid lines
- Front/rear parking sensors
- Door mirrors with auto-dimming
- Front/rear view mirror with auto-dimming

CLIMATE PACK UPGRADE (BLU)
- Colour detection device
- Heat-reflecting windscreen
- Rear seat climate control air vents
- Refrigerated storage compartment on dashboard

SOUND THEATRE (BPK)
- Advanced audio system (8 speakers, incl. subwoofer)
- Ambient lighting

SOUND THEATRE BY Harman/Kardon® (8PK)
- 900 W premium audio system (10 speakers, incl. subwoofer)
- Ambient lighting

CONVENIENCE PACK (BBK)
- Exterior side-vision mirrors
- Keyless entry (front doors)
- IP storage compartment on driver side

PACK
- Sunroof with illuminated vanity mirror (driver)
- Interior side-vision mirrors
- Power folding mirrors
- 8-way power driver seat memory, 8-way passenger seat memory
- 8-way power driver seat, 8-way passenger seat
- Heated steering wheel
- Bright speaker grille ring

LIGHTING PACK (BLZ)
- Headlight washers
- 35W bi-xenon headlights + Adaptive Frontlight System (AFS)

POWER SEATS PACK (8MB)
- 6-way power driver seat (memory)
- 6-way power passenger seat

LUSSO PACK (8T4)
- Reconstituted Grey Oak Real wood insert
- Superior leather seats
- Heated front seats
- 7” colour TFT Instrument Cluster
- Leather door, upper door and central arm rest
- Luxury steering wheel
- Power folding mirrors
- 8-way power driver seat memory, 8-way passenger seat memory
- Chrome DLO
- Heated steering wheel
- Bright speaker grille ring

LUSSO PACK (BBL)
- Superior leather seats
- Heated front seats
- 7” colour TFT Instrument cluster
- Leather door, upper door and central arm rest
- Walnut Wax (Real wood insert)
- Luxury steering wheel
- Power folding mirrors
- 8-way power driver seat memory, 8-way passenger seat memory
- Chrome DLO
- Heated steering wheel
- Bright speaker grille ring
