
GIULIA

PASSION AT THE CENTER OF EVERYTHING.

A profoundly renewed Alfa Romeo Giulia is the most distinctive and comfortable companion in your everyday life without ever losing its key characteristics. A timeless style that embodies the Italian automotive spirit and features the latest safety and infotainment systems, Giulia has everything you need to enjoy the short drives and the long journeys, while never abandoning the Alfa Romeo philosophy of crafting automobiles that deliver truly unique experiences and emotions.

FOR A SYMPHONY OF MECHANICS AND EMOTIONS.

Alfa Romeo Giulia brings together design, power and innovation, all thanks to a series of patented technologies and the use of lightweight materials to deliver unique and unmistakable driving excitement.

ALFA™ ACTIVE SUSPENSION

The Alfa™ Active Suspension dynamically adjusts the vehicle response according to the mode selected with the Alfa™ DNA selector: a softer shock absorbing setting for a more comfortable ride, or a more rigid setting for more precise sporty driving.

TRANSMISSION ZF

The ZF 8-speed automatic transmission, standard on every version, changes its personality based on the selected driving mode. Enjoy comfort and efficiency with Advanced efficiency, fluid and discreet in Natural and quick and sporty in Dynamic.

ALFA™ LINK SUSPENSION

The all aluminum Alfa™ Link Suspension System ensures excellent dynamic driving behavior and unique handling. The front suspension features a double-wishbone system with semi-virtual steering axis that keeps the wheels perfectly perpendicular to the road even on the most intense curves. The rear suspension, a Multilink system with four and a half links, guarantees the best of both worlds between lateral grip and comfort, on uneven surfaces.

AERODYNAMICS

Giulia can reach an aerodynamics coefficient up to 0,26. This is the result of endless hours of wind tunnel testing that allowed to reduce turbulence and enhance the dynamic efficiency of the vehicle.

Data, descriptions, illustrations and services are intended solely as a guide and product characteristics may differ from those represented, sometimes for manufacturing reasons.

BECAUSE DRIVING PLEASURE
IS NEVER OPTIONAL.

OPTIMAL WEIGHTS DISTRIBUTION

The 50/50 optimal weight distribution, is reached thanks to the extensive use of ultralight materials, such as aluminium and carbon fibre, and exceptional engineering. These uncompromised choices deliver first-class handling and one of a kind driving experience.

CARBON FIBRE DRIVESHAFT

The carbon fibre driveshaft, taken directly from the world of competitive racing, is standard on all models and contributes to the overall lightweight design of the vehicle and the highly reactive acceleration from the motor.

BEST-IN-CLASS STEERING

The steering of Alfa Romeo Giulia is the most direct of the entire category and delivers unrivaled on-center quickness.

8.8" MULTI-TOUCH DISPLAY

The new 8.8" Multi-Touch display is intuitive and reactive. With a few simple touches, organise your apps and widgets. Enhanced in every way, the large touchscreen creates easy viewing of maps, contacts and car performances.

- **INTERACTIVE WIDGETS**
- **VISUALIZE FULL-SCREEN MAPS**
- **MANAGE THE VEHICLE'S PERFORMANCE**
- **IMPROVED INTERFACE FOR MORE INTUITIVE EXPERIENCE**

REORGANIZE WIDGETS

ORGANIZE AND MOVE ICONS WITH A SIMPLE TOUCH

HAVING EVERYTHING UNDER CONTROL,

Design and craftsmanship, combined with cutting edge technology, have brought to a redesigned and reorganised center console. Every component was designed and created to guarantee maximum efficiency and functionality.

Data, descriptions, illustrations and services are intended solely as a guide and product characteristics may differ from those represented, sometimes for manufacturing reasons.

POWER

Choose the driving style that fits you and your driving conditions best with the Alfa™ DNA drive mood selector: Dynamic, Natural and Advanced efficiency.

DYNAMIC

Sharper throttle response, enhanced steering feedback, more reactive braking and performance shift-mapping for even sportier driving experience and pleasure.

NATURAL

For perfect balance in daily driving, combining efficiency and comfort.

ADVANCED EFFICIENCY

Engineered to maximise fuel efficiency and reduce fuel emissions.

COMMAND

Manage and move through all of the various applications and widgets. Scroll through and change performance features, climate and connected services without ever having to touch the screen.

CONTROL

The redesigned center console features a leather-wrapped lever which delivers comfort and power as you change through the gears.

RECHARGE

The new wireless charger is handy and always ready. No more cords and cables. Just place your smartphone in the charging area and you'll be at 100%.

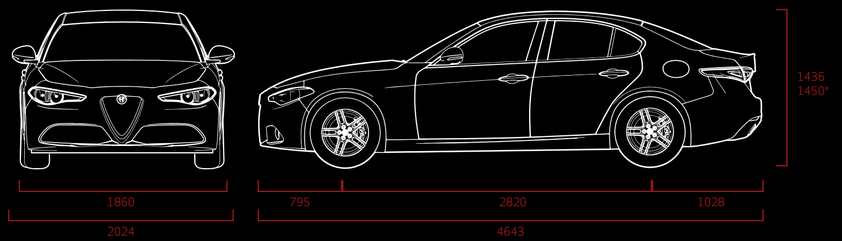
Load capacity (dm3) with flat rear seats	n.a.
OTHERS	
Turning circle diameter (m)	11,4
Steering Ratio	11,9
Wading depth (mm)	



The values of the CO_2 emissions and fuel consumption are defined on the basis of official tests in compliance with the provisions under the applicable EU Regulation in force at the time of the homologation. In particular, the values indicated are determined on the basis of the WLTP test procedure. The CO_2 and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The values of CO_2 and fuel consumption may not reflect the actual values of CO_2 and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, as well as the condition, use and equipment of the vehicle. The indicated value of CO_2 and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with subsequent configuration depending on equipment selected and/or size of tires selected. The indicated values of CO_2 and fuel consumption are not definitive and may evolve as a result of changes in the production cycle. In any case, the official values of CO_2 and fuel consumption of the vehicle purchased by the customer will be provided with the vehicle's accompanying documents. In cases where the values of CO_2 and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each Country.

Where history and future meet

Lines that have changed the way we imagine design; cars and drivers who set the pace for competition on the track; technologies that have redefined the standards of innovation. Beauty, speed, robustness and steady production: this is Alfa Romeo's legacy. It's driving passion, it's evolution, it's our heart.

La Macchina del Tempo, Museo Storico Alfa Romeo will guide you through this extraordinary all-Italian story. Six fl oors of history binding past, present and future and complimenting the achievements of an extraordinary brand, its vehicles, its technology and style.

Heritage

PASSIONE SENZA TEMPO

CERTIFICATE OF ORIGIN /
THE HISTORY OF YOUR CAR

FCA Heritage offers you the opportunity to discover the history of your classic Alfa Romeo, starting from its chassis number. After accurate examination of the relevant documents at the company's historical archives, a certificate is issued stating the vehicle's year of manufacture and its original configuration (e.g. model specifications, engine serial number, exterior and interior features).

CERTIFICATE OF AUTHENTICITY /
CERTIFIED PURE PASSION

A panel of Alfa Romeo experts can verify the authenticity of your vehicle and issue an official certification, a numbered metal plaque and a certification book – so you can showcase the added value your classic Alfa Romeo deserves.

RESTORATION /
TIMELESS CHARM

FCA Heritage's dedicated team of professionals takes care of your classic vehicle restoring, replacing or reconstructing any of its parts, to bring your Alfa Romeo back to its original beauty.

For information on the Alfa Romeo Classiche program, please call the international toll - free number 00800 25320000 or visit www.fcaheritage.com online.
