ALFA ROMEO

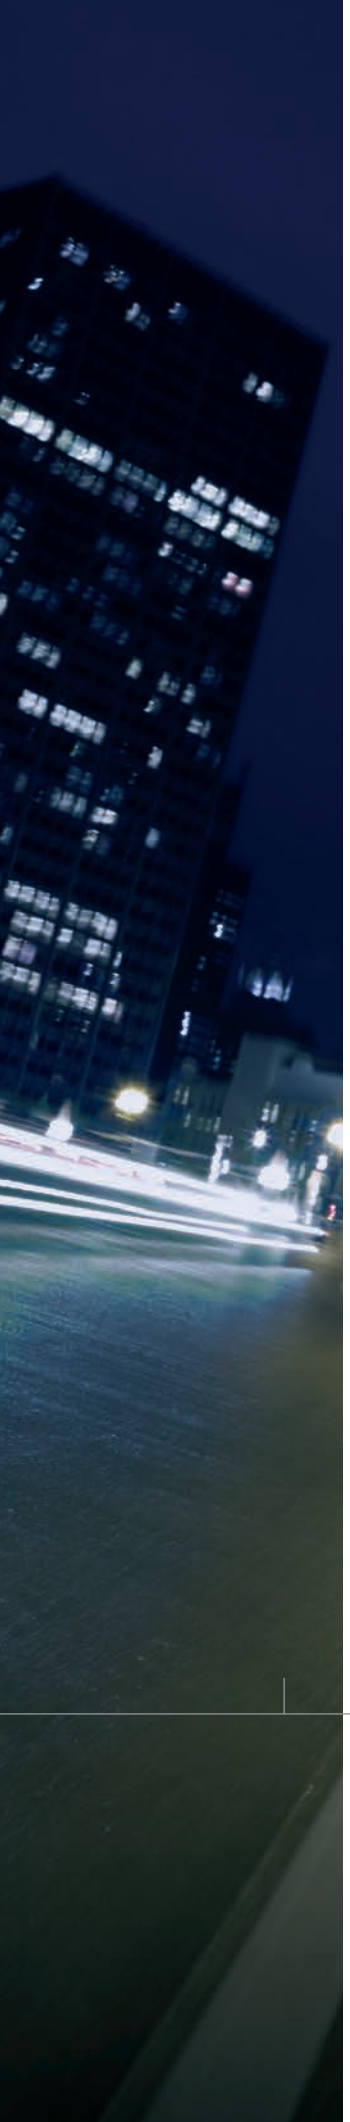
MiTo, a powerhouse of constantly evolving content.
Design, technology, safety and performance
from a veritable energy machine.



ESSENCE OF ALFA ROMEO

STYLE

Up to 18" alloy wheels

Coupé door design

LED rear lights

EFFICIENCY

Alfa MultiAir engines

Start&Stop™

Gear Shift Indicator

SPIRIT

Alfa Romeo D.N.A.

ALFA TCT semi-automatic sequential gearbox

(Twin Clutch Transmission)

DYNAMISM

Power of up to 125 kW

Alfa Adaptive Suspension

SAFETY AND TECHNOLOGY

7 airbags

Alfa Electronic Q2

VDC with Hill Holder

Alfa Dynamic Steering

Uconnect®

Length 4.06 m - Width 1.72 m - Height 1.44 m

These are the vital statistics of a sports car on which even the styling details are designed for optimum performance.

Tyres with 17" or 18" rims featuring wide tread for true **sports handling**.

A car which combines a sporty coupé line with the comfort of a compact saloon:

a streamlined muscular exterior silhouette with frameless doors, while inside there are four comfortable seats.

STYLE

Rear lights with **LED** technology, a design detail that responds to the need for high **visibility** and enhanced safety.

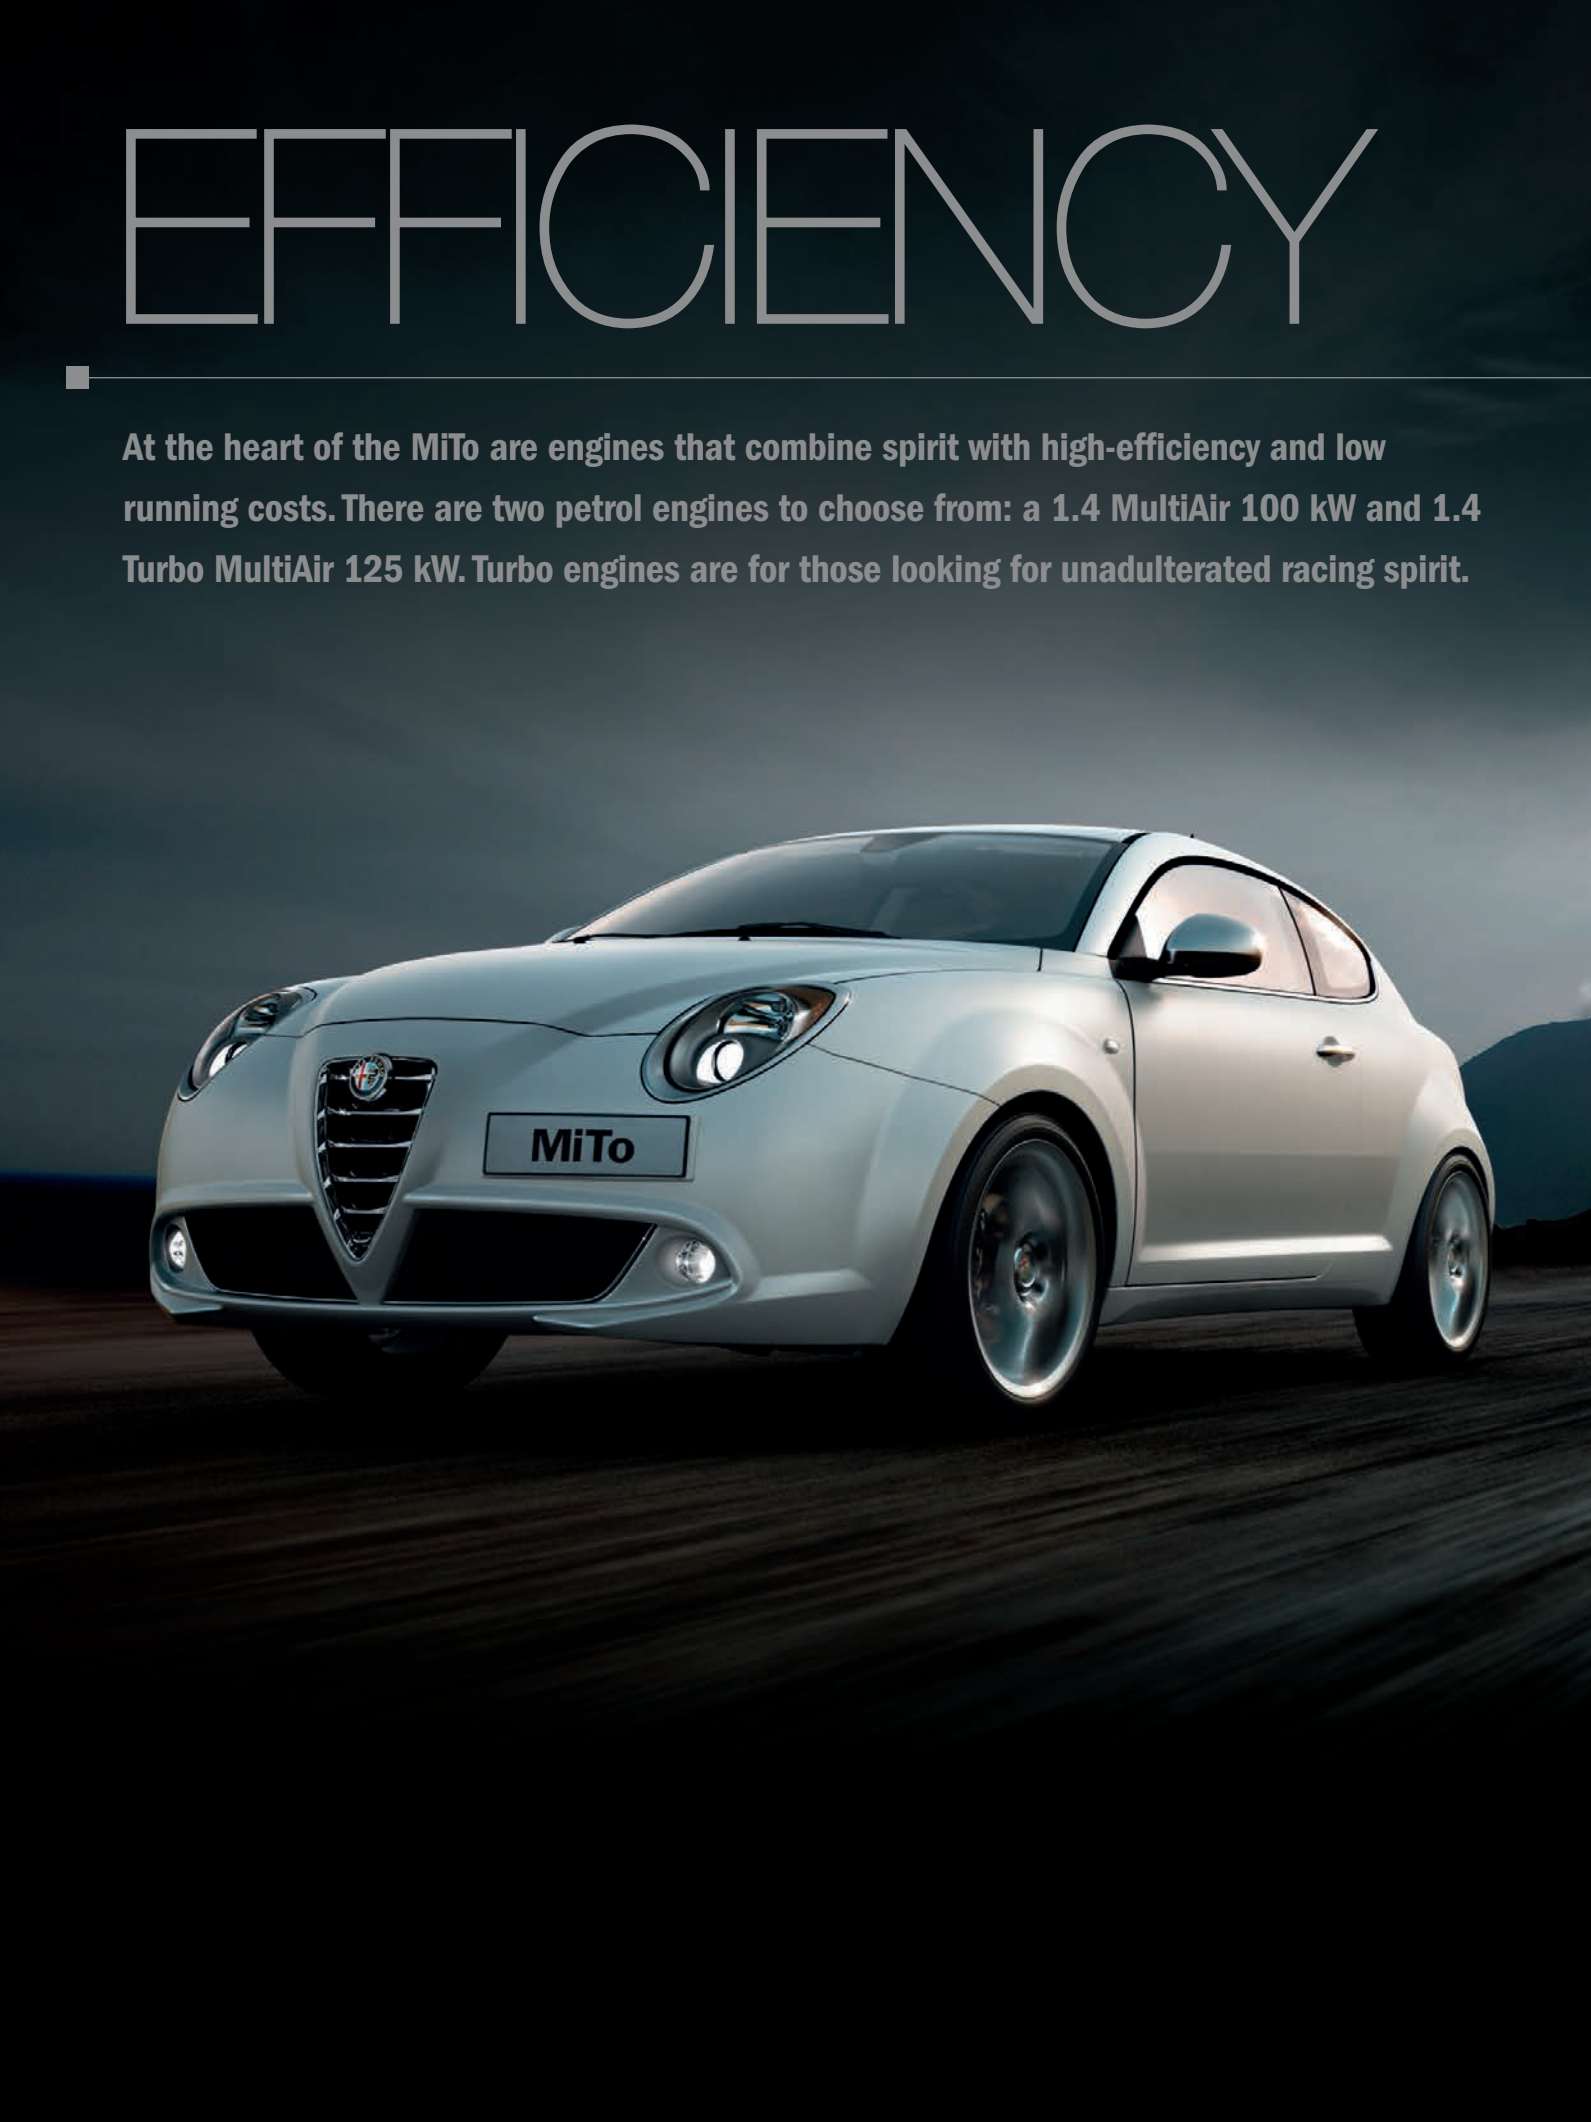
INTERIOR

The driver can refer to a racing instrument panel.

Only the finest materials have been selected for total comfort, with interiors in leather and fabrics that exude an unmistakable 'made in Italy' quality.

EFFICIENCY

At the heart of the MiTo are engines that combine spirit with high-efficiency and low running costs. There are two petrol engines to choose from: a 1.4 MultiAir 100 kW and 1.4 Turbo MultiAir 125 kW. Turbo engines are for those looking for unadulterated racing spirit.



To keep fuel consumption and emissions low, the MiTo has another device on board:

- Start & Stop™ device, which automatically stops and starts the car when at a standstill in traffic, is constantly active, but can also be deactivated by the driver.
- Gear Shift Indicator - GSI: this system suggests, by turning on a light on the control panel, when to change to the gear best suited for optimal power unit efficiency and thereby reduces fuel consumption.

	1.4 MultiAir Turbo petrol 100 kW Distinctive	1.4 MultiAir Turbo petrol 125 kW QV
Displacement	1368 cc	1368 cc
Max. torque	206 Nm @ 1750 rpm	250 Nm @ 2500 rpm
Max. speed	207 km/h	219 km/h
0-100 km/h	8.4 sec.	7.5 sec.
Fuel consumption L/100 km	5,6	6,0
CO_2 g/km	128	139
Class	Euro 5 as standard	Euro 5 as standard

Fuel consumption figures are obtained for comparative purposes in accordance with EC directives/regulations and may not be representative of real life driving conditions. Factors such as driving style, weather and road conditions may also have a significant effect on fuel consumption.

PERFORMANCE

Choose your ideal engine: you can count on Alfa Romeo's great engineering tradition.

ALFA MULTIAIR

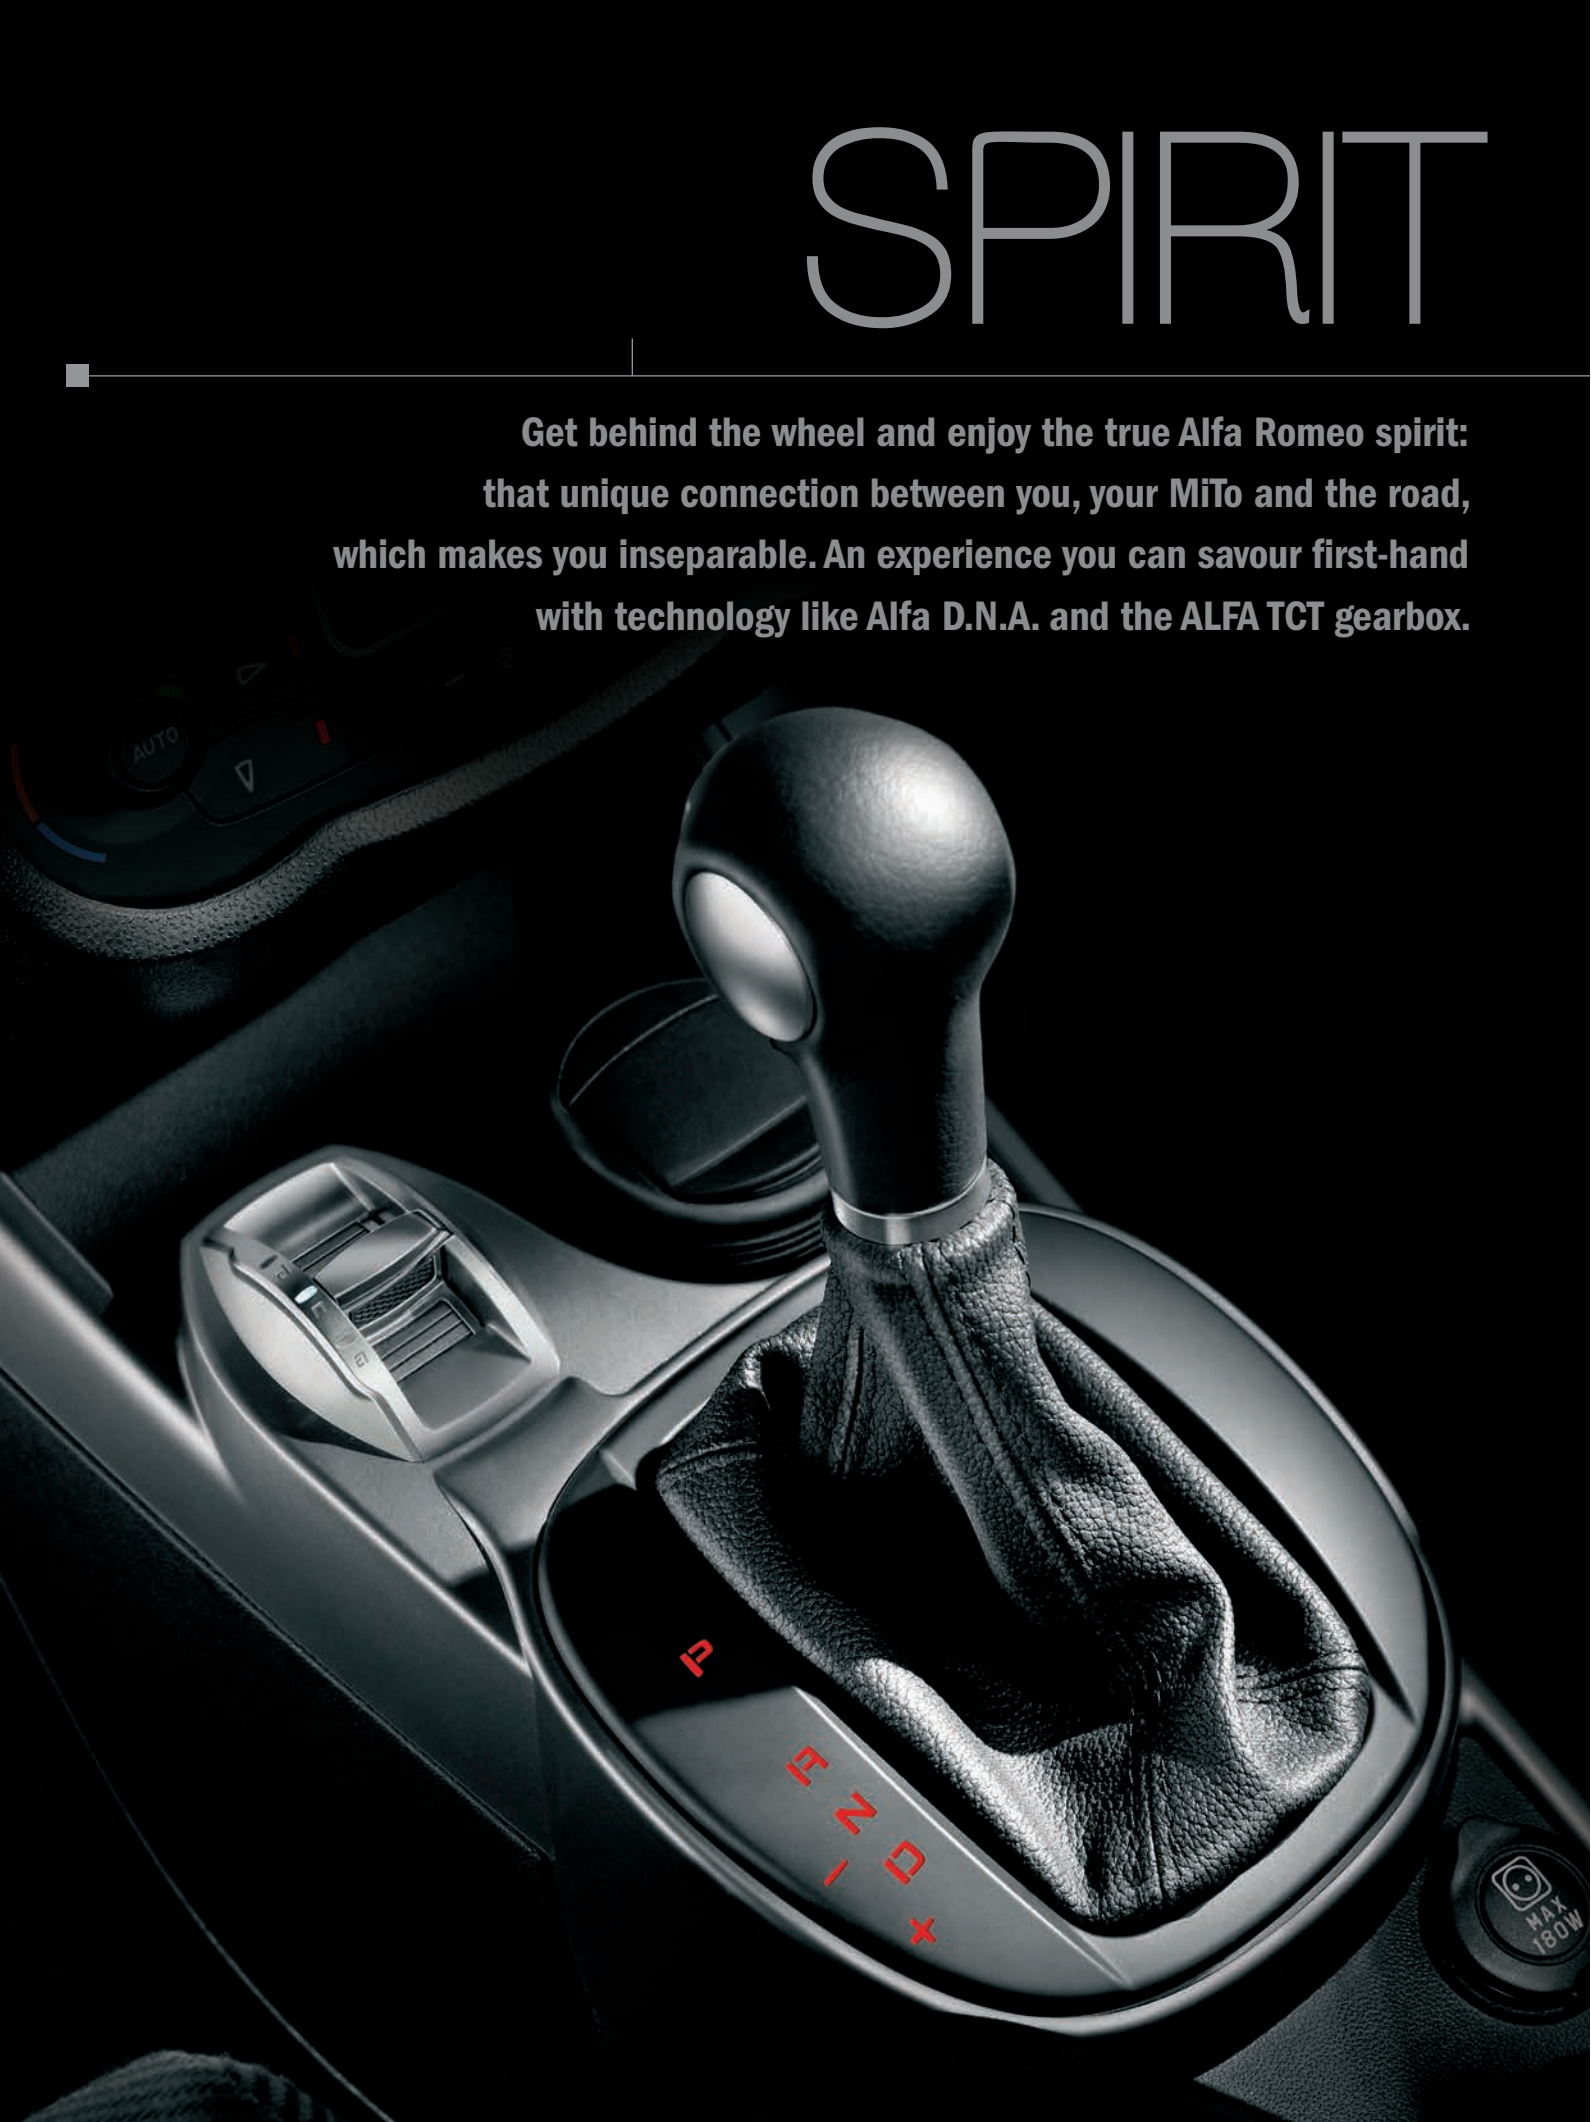
This technology marks a new era for petrol engines, continually varying the intake of air into the engine directly as it enters the cylinders, based on the actual engine requirements.

- From 10% to 35% more **maximum power** and up to 15% more **torque** at low speeds.
- **Pick-up** improved by up to 12% with up to 10% lower **fuel consumption** and emissions.

INTERNATIONAL engine of the year awards 2010

SPIRIT

Get behind the wheel and enjoy the true Alfa Romeo spirit: that unique connection between you, your MiTo and the road, which makes you inseparable. An experience you can savour first-hand with technology like Alfa D.N.A. and the ALFA TCT gearbox.



ALFA D.N.A.

Derived from racing experience, Alfa D.N.A. is the exclusive Alfa Romeo driving selector which, by acting on engine, brakes, steering, gearbox, suspension and accelerator, perfectly adapts the vehicle's performance to suit the driver's style and road conditions.
It offers simple, intuitive use: just shift the selector near the gear lever.

- In the **Dynamic** driving mode the electronic traction control systems are less intrusive, the engine and brakes are more reactive and quicker to respond, and the steering is more direct and sporty.
- Shift the selector to the **Natural** urban driving mode and the calibration is more neutral, with optimised consumption.
- When poor grip conditions make the road more demanding, all you have to do is activate the **All Weather** setting, designed to anticipate the intervention of all of the electronic safety devices.

ALFA TCT

ALFA Twin Clutch Transmission is the innovative, twin, dry clutch, semi-automatic transmission, consisting of two gearboxes in parallel that allow the next gear to engage while the previous one is still engaged. The ALFA TCT guarantees driving comfort and a sporty feel that far surpasses that offered by traditional automatic transmissions, coupled with improved efficiency and lower fuel consumption.

- **Driving pleasure**
  Fast gear shifting in both automatic and sequential mode, available with optional steering wheel paddles for a true sports car driving experience.
- **Comfort**
  Drive is progressive and continuous at all times, without the typical loss of torque associated with traditional automatic or manual gearboxes.
- **Efficiency**
  Consumption and emissions are lower compared to the same fuel supply with a manual gearbox.

DYNAMISM

Agility, precision driving and comfort, thanks to MacPherson front suspension and rear torsion beam with semi-independent wheels. Tried-and-tested performance which, in a compact car like the MiTo, guarantees boundless fun and maximum safety.

ALFA ADAPTIVE SUSPENSION

Standard on the high-performance 125 kW MultiAir Turbo Petrol engine. It adopts variable-response shock absorbers. Thanks to the by-pass valve, they improve comfort in response to stresses, maintaining the vehicle's excellent dynamic control.

MiTo is all set to protect driver and passengers in any situation.

SAFETY

ACTIVE SAFETY

- **ALFA ELECTRONIC Q2** reproduces the action of a self-locking differential.
- **ABS** Anti-lock Braking System.
- **EBD** Electronic Brake Force Distributor between the front and rear wheels.
- **VDC** Electronic Vehicle Dynamic Control for better car stability.
- **ASR** Anti-Slip Regulation system provides traction control by adjusting the brakes and Engine Control Unit (ECU).
- **HBA** Hydraulic Brake Assistance for emergency braking.
- **Hill Holder** System to aid hill starts.
- **MSR** Motor Slip Regulation controls engine braking when the accelerator pedal is released.
- **CBC** Corner Brake Control system optimises braking performance on bends.
- **ALFA ACTIVE STEERING** integrates electric steering in the VDC functions: a light impulse on the steering wheel prompts the driver to correct oversteer.

PASSIVE SAFETY

- 7 **AIRBAGS** as standard.
- **SEAT BELT REMINDER** technology (SBR): five warning lights on a small screen allow the driver to make sure all seat belts are fastened.
- **ANTI-WHIPLASH DEVICES** on seats.
- **COLLAPSIBLE** steering wheel.
- **STEERING COLUMN** designed to absorb impact energy in a controlled manner.
- **STEERING-LOCK** accommodated out of the way of the driver's knees
- **LED** rear lights to improve the visibility of the car.

You want to connect to your music and have everything under control. That's why MiTo offers you Uconnect®, the built-in system that combines a top-quality sound system with a raft of multimedia services and functions. And you can operate it with the touch of a finger or simply your voice, thanks to a 5” colour touchscreen and voice recognition.

Uconnect® 5" Radio

- You can use the touchscreen to access all audio functions directly:
  AM/FM radio, CD player, media player devices can be connected via USB port or Aux-in socket.
- Commands can also be voice activated.
- The Bluetooth® interface lets you read any text messages received (through the text to speech system) and use the steering wheels controls to handle telephone calls*.
- With the Audio Streaming system you can play music files or web radio straight from your smartphone without wires*.

  Also Availble with DAB Digital Audio Broadcast.

Radio has a "NAV" button for navigation, but it is not functional in South Africa.

* The list of compatible mobile phones is available online at: www.alfaromeo.com

WARRANTY AND MAINTENANCE PLAN

Customers who chose an Alfa Romeo car know what they can count on a vehicle that is technologically innovative with state-of-the-art safety but also on a world of solutions and services, designed to meet all the needs of both car and driver.
The Alfa Romeo MiTo is fully personalisable, and that also applies to the way you buy and own it, due to a range of options that have been developed for you.

Warranty Services

Welcome to the world of Alfa Romeo. Our vehicles have established a fine reputation as exceptional value for money, coupled with the famous Italian flair for design. It is part of what makes Alfa Romeo such an exceptional brand. Every Alfa Romeo comes complete with a comprehensive warranty and maintenance package that is equally exceptional. The 3 year / 100 000 km warranty ensures car coverage against manufacturing defects that will be resolved free of charge and with the use of original parts. Terms and conditions apply.

The Warranty Offers:
- 36 months from the date of sale, to a maximum of 100 000 km travelled during the 36 month period
- 36 months on the paintwork
- 60 months with specific reference to anti-perforation.

Maintenance Plan Offers:
- All scheduled services during the 36 months, up to a maximum of 100 000 km
- Wear and tear repairs during the 36 months, up to a maximum of 100 000 km travelled

The revolutionary and award-wining MultiAir Engine, which powers the whole Alfa Romeo MiTo range, comes with a 3 year / 100 000 km Maintenance and Warranty Plan.
This Alfa Romeo MiTo has a 30 000 km service interval, with no oil changes in-between.
